long-term negative effects on the quality of our work, our bodies and our relationships. Stress wears down your immune system, increases your heart rate, renders you vulnerable to frequent illnesses and even deadly heart attacks.

It's not the stress itself that causes harm. In fact, stress is what keeps us alive. Think of this: when your heart contracts to beat, that is stress. But the beat—the stress—is balanced by the rest between the heartbeats. Your heart, literally and figuratively, knows stress and balance are the yin and yang of life.

As professionals who drive ourselves to greater achievements, we have to remember that more stress requires more frequent breaks to balance and refresh ourselves. Which is exactly why you should take a break at the NEW annual retreat!

We've planned an event that will relax and stimulate you in completely refreshing ways. On Friday, June 24, and Saturday, June 25, at the Grand Regency Hyatt on the Courtney Campbell Causeway we'll be transported from city-life stress into a relaxing setting overlooking the bay, surrounded by egrets and herons and a gorgeous sunset. Laughter and camaraderie shared with other NEW members will lighten your heart and your mind. Quiet private time is an option, so bring a book or schedule a pampering massage. Better yet, bring a friend to introduce to the fabulous women we are. And if you're new to NEW or Tampa, this is the opportune time to get to know us, because we know strong relationships are the foundation of good business.

You'll also discover new information to create more productivity in your business. CompassPointz whiz Karen Koch will translate "geek language" into terms we can understand, and share the latest technology and social media information we can put into practice at the office—to help us reduce stress!

So join us for a fun-filled weekend retreat on June 24–25. You owe it to yourself to take a break. Mark your calendars, ladies, because this is an event you do not want to miss.

With some basic information, people can capitalize on tips and tricks to keep their computers running smoothly and hopefully, their business more productively.

We will also investigate the world of Social Media. Whether you like it, tweet it, blog it or link in, it is definitely not a spectator sport. Don't be left on the sidelines...get in the game!

After the official program is over, you are welcome to stay and enjoy yourself at the hotel.

Hope you can make it. It should be a great time.
